

I have had comcast for cable tv and high speed internet for almost 3 yrs. I went to Direct tv now my internet has raised by 10 dollars which i feel is very bad. Also the speeds of the service are not up to par. I feel we need more tired service. upload is only available from 256k - 384k nothing more. Even paying 95 dollars a month for a "PRO" service doesn't get you nothing more than 384. Also they are the only provider to me. I wish i had more choices and better service options.
